

COVID-19 Update

May 8, 2020

The following information is provided to supplement the COVID-19 statistics for FDC Miami provided at [www.bop.gov/coronavirus](http://www.bop.gov/coronavirus).

# of inmates tested: 2

# of positive inmate tests: 0

# of inmates in a stand-alone quarantine unit: 38

19 new commitments

19 potential exposures identified through contact tracing

As reported on [www.bop.gov/coronavirus](http://www.bop.gov/coronavirus), 14 FDC Miami staff have tested positive. Although the FDC continues to conduct contract tracing, in some cases it is not possible to quarantine all inmates with whom infected staff had contact in a separate quarantine unit. Nevertheless, said inmates are quarantined in place within their cells pursuant to the FDC's modified operations with limited movement for laundry, shower, telephone, and computer access to maximize social distancing.
